Dear Commissioner Lucki:

**Re: Pfizer BioNTech COVID-19 Vaccine for use in children 5 through 11 years of age**

We write in relation to our criminal complaint of November 16, 2021.

We have seen a recent media report that the RCMP does not comment on whether investigations are active or ongoing. That being said, we respectfully request that you acknowledge receipt of our complaint, and provide a file number and the name of the investigator assigned to this matter.

Time is clearly of the essence with regard to this investigation. As you are likely aware, notwithstanding our criminal complaint, and notwithstanding clear scientific evidence provided in our letter of complaint that children are going to be killed as a result of being injected with the Pfizer 5- to 11-year old COVID vaccine product, Dr. Theresa Tam and Prime Minister Trudeau have approved the product for use in Canada.

Currently, 39,000 Alberta children are pre-registered for the Pfizer COVID-19 vaccine. We request that the RCMP closely monitor adverse vaccine events from the rollout of this vaccine across Canada, and in the event that any child is either physically harmed or killed by this product, that Prime Minister Justin Trudeau and Dr. Theresa Tam be investigated for either assault causing bodily harm or pre-meditated homicide.

Thank you in advance for your immediate reply to this correspondence.

Yours very truly,

**RATH & COMPANY**
