Dr. Deena Hinshaw  
Chief Medical Officer of Health      Fax: 780-427-7683  
10025 Jasper Avenue  
Edmonton, AB T5J 2N3

Dear Dr. Hinshaw:

**Re: Moderna Advisory on November 23, 2021**

---

As you are aware, the Moderna vaccination was de-certified for use in Sweden for those under the age of 30 on October 6, 2021. In Canada, Moderna was recommended not to be given to male patients between the ages of 18 to 24 on October 1, 2021. Can you please advise as to why you waited 52 days to recommend the discontinuance of the Moderna vaccine for Albertans 12- to 29-years of age.

Can you also please advise as to what vaccine injuries were associated with the provision of the Moderna shot to the 12- to 29-year age group in Alberta between October 1 and November 23, 2021.

As there is an open complaint with regard to your conduct pending at the College of Physicians and Surgeons, can you please provide this information directly to Dr. Dawn Hartfield with regard to that complaint.

By copy of this letter to the Attorney General of Alberta, we are requesting a criminal investigation be opened with regard to your failure to act to protect 12- to 29-year olds in the Province of Alberta with regard to the provision of an experimental drug contrary to the provisions of the *War Crimes and Crimes against Humanity Act* and the *Criminal Code of Canada*.

Yours very truly,

**RATH & COMPANY**
